V460
Rat Trap

THE VLINK ADVANTAGE
Simple. Reliable. Control.

THE MOST INNOVATIVE RODENT TRAP IN 100 YEARS

VLINK is the only solution that offers zero false triggers with unprecedented efficacy, durability, and consistent performance. Coupled with long-range connectivity and an intuitive app – VLINK will change the way you do business.

Patented technology offers unmatched efficacy, VLINK provides more consistent kill rates than traditional traps with no false triggers.

The rugged, water-resistant outer shell is built to withstand the elements and everyday rigors of commercial environments.

Easy trap setup and app pairing ensures you can get back to business quickly.

TRAP BENEFITS

Built Tough

Rugged, water-resistant shell is built to withstand the rigors of commercial environments.

Killer Traps

Dual-entrance traps encourage rodent interaction to offer unmatched efficacy.

Humane and Concealed

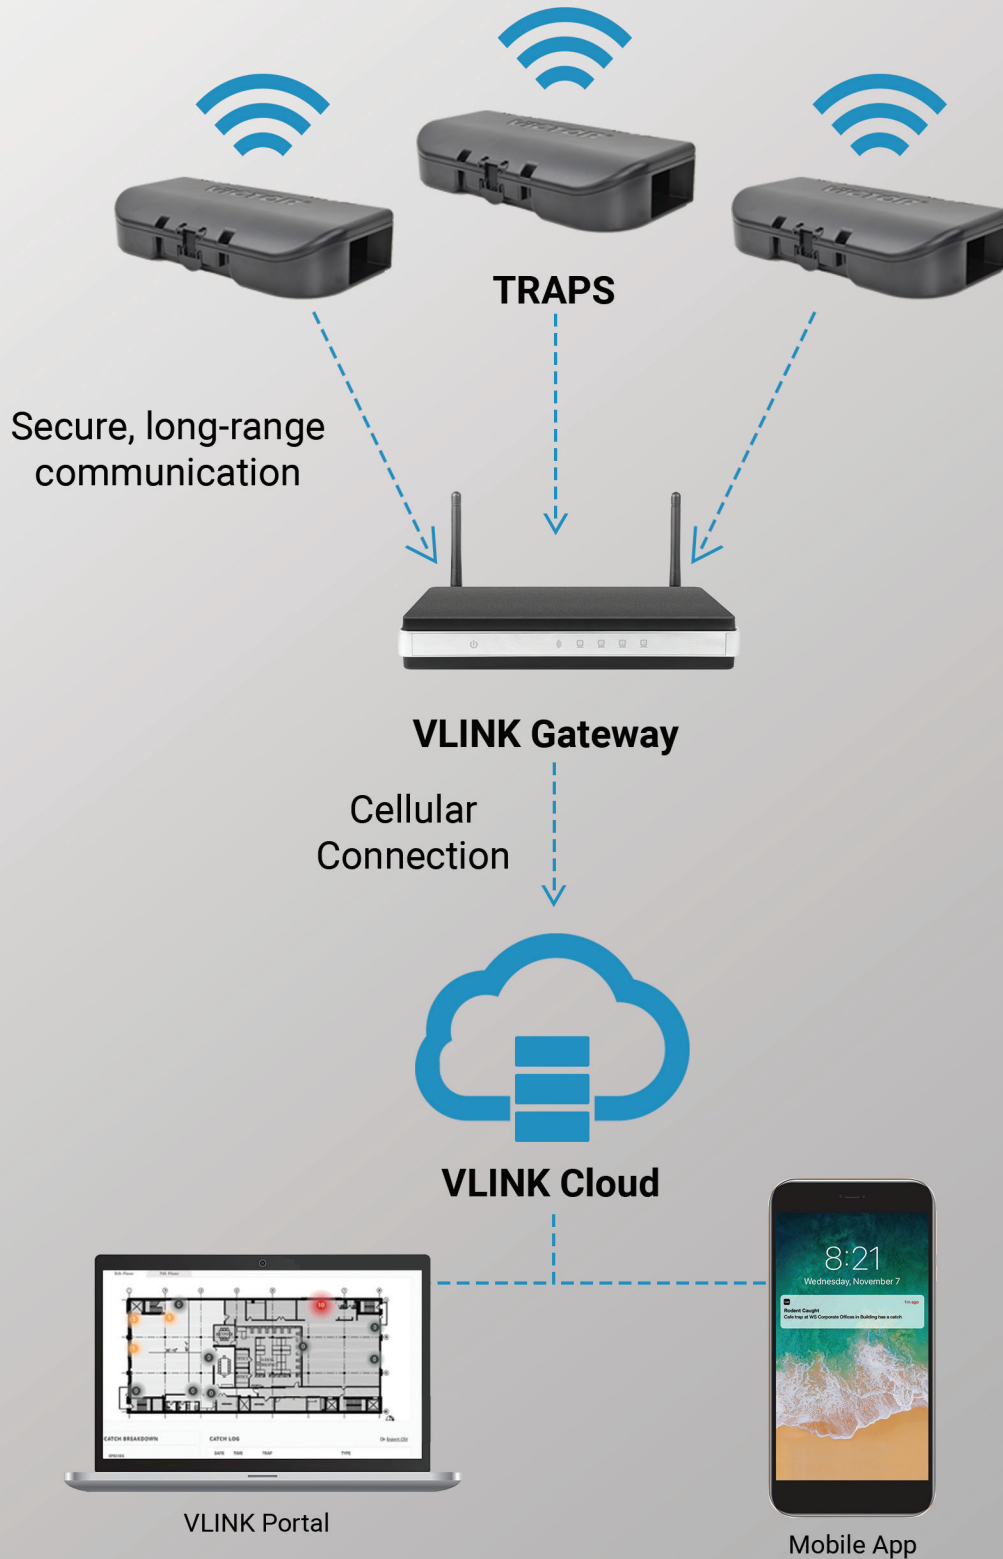

The quick, high-voltage shock offers a clean and humane alternative to rodenticides. Only service the trap when alerted. Until serviced, the rodent remains secure and out of sight.

SYSTEM OVERVIEW

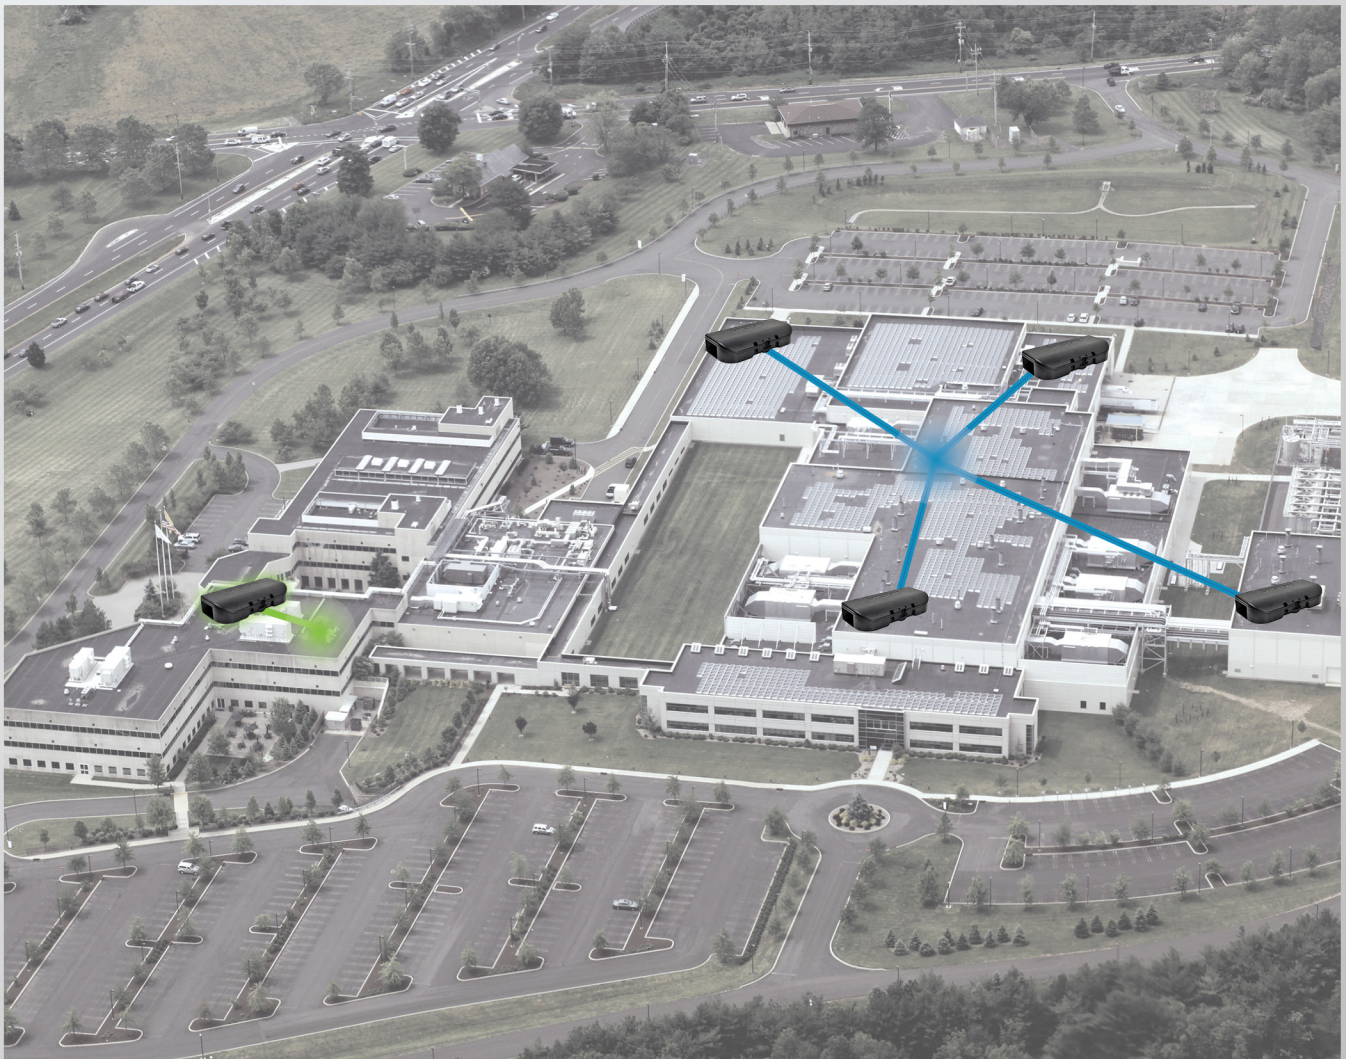

VLINK utilizes state-of-the-art technology to bring 24/7 visibility to your rodent control program.

LONG RANGE COMMUNICATION

VLINK vs. WiFi

One VLINK hub covers 100X more square footage than WiFi and each hub can connect to an unlimited number of traps.

■ LoRA Range ■ WiFi Range

24/7 MONITORING

VLINK gives you real-time visibility into all of your sites, worldwide. Monitor activity from anywhere at any time. This complete coverage solution can be used both indoors and outdoors.

DATA ANALYTICS

Turn your data into actionable insights with VLINK reporting. Custom reports allow you to quickly identify trends and issues for your customers. Our floorplan tool empowers you to view rodent activity in a whole new way, making root cause analysis easier than ever.
